THE CHARLEROI MAIL

VOL. XVIII. NO. 4. CHARLEROI, WASHINGTON CO., TUESDAY, JUNE 19, 1917. ONE CENT

A SPLENDID CLASS GRADUATES FROM CHARLEROI HIGH SCHOOL

Class Numbers 48 Members, 36 from the Academic and 12 from Commercial

DR. EDWIN E. SPARKS, SPEAKER

Impressive commencement exercises were held at the Charleroi high school auditorium Monday evening when thirty six members of theacademic and twelve of the commercial department were graduated. The speaker of thee vening was Dr. Edwin E. Sparks, President of State College who took for his subject, "The Great Cruciole." Special music was furnished by members of the class and the high school orchestra.

Under the direction of Prof. I. T. Daniel the high school orchestra played in excellent style the overture, "Light Cavalry," Von Suppe as the opening number and Rev. C. P. Bastian of the Christ Lutheran church pronounced the invocation.

Fred Bastian, the salutatorian, in well chosen words, welcomed the parents and friends of the graduates, then spoke of the great world war, bringing out the indebtedness of the United States to France for the way in which they preserved our liberty and urged our help to France in their hour of need.

With good effect Miss Jean Bowers soprano, sang "Morning," Oley Speaks. She was accompanied by Miss Felicie Bosson. Then, Miss Helen Fleming, the class valedictorian spoke bringing out the work and place that women are taking and will take in the future, doing the same work that men are doing and just as efficiently.

Misses Mary and Rusella Thomas, in a pleasing manner rendered the duet, "I Feel Thy Angel Spirit," Graben-Hoffman. Miss Mary Welch played the accompainment.

Prof. Pollock introduced the speaker of the evening, Dr. Edwin E. Sparks, president of State College. Dr. Sparks recited the facts that Youth and Opportunity are the most desirable things in life, saying that the class had both these and asked that they be careful in choosing their different walks of life for the best advantages. Continuing he likened the school to a great crucible into which raw material is placed and then tapped once a year when the finished product is brought out. Then they are ready for the tests; to each should be put the test of their ability to obey and the true spirit of respect for authority.

He said that the greatest weakness of the American people was the lack of respect for authority and obedince of law. Some people think that the government owes every man a living, but it does not, however it owes, and gives every one a chance to make a living. The fact that so many laws are made, one counteracting the other that a person cannot help breaking the law, was brought out. No law

PHILADELPHIA COMPANY IS ERECTING BY PRODUCT PLANT

Elrama is a scene of activity at the present time, because of the building of a by-product plant, which it is said the Philadelphia Company is preparing to erect. A considerable amount of land has been purchased adjoining the holdings of the Pennsylvania railroad, and between the Elrama yard and the glass house at Walton. This property is quite level, several acres in extent, and lies directly on the river. Just what by-products are to be produced could not be learned, but from the activity displayed it is evident the company is desirous of having the plant completed at the earliest possible date.

DRAFT FIGURES ARE COMPLETED

Alphabetical List of Those Registered is Now Being Made

THERE ARE 44 ALIEN ENEMIES

The Washington county board of registration, after many busy days since June 5th, has completed the official count of those who are subject to draft under the conscription act, and who registered on the 5th of June. The total number of registrations for the county is 18,904.

The summarization of those registered, as submitted to the Governor, contains some interesting figures. It shows that there are 7,183 aliens who come within the conscription act, also 44 alien enemies, making a grand total of 10,227. Of those registered there were 700 colored men, while the total number of whites is 10,977.

While many are classified under exemptions does not necessarily mean they are exempt. They will be drawn for service just the same as others, and exemptions will be determined later.

The registration board will now begin the work of making an alphabetical list of those who registered and make duplicate cards for those precincts where the registrars did not have time to complete this work.

The official summary is as follows:

WHITE

Total legislative, judicial, or executive offivers, 12.

Total persons totally disabled, 85.

Total dependent relatives indicated, 6,677.

Total probable exemptions not indicated in previous classes, 298.

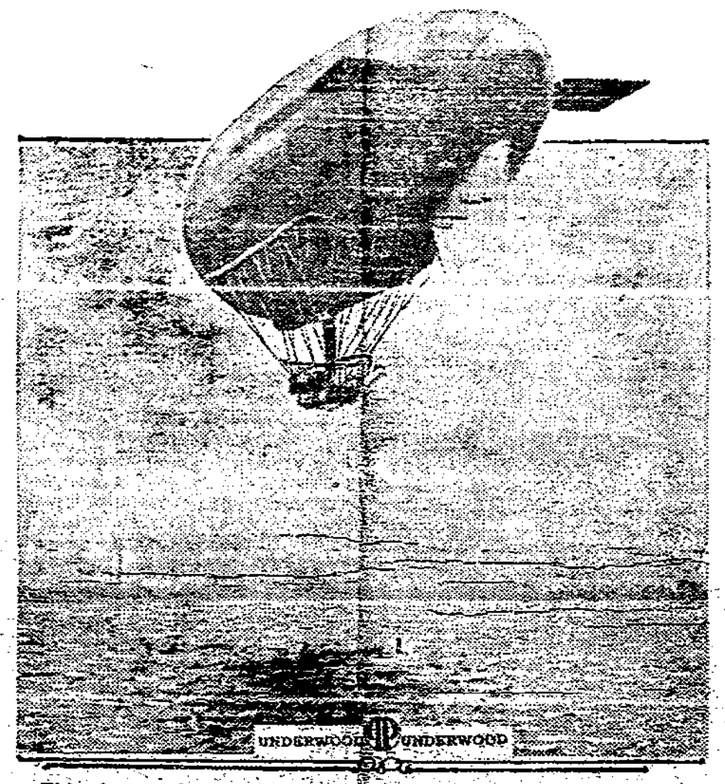
New Type of American Airship For Army Makes Successful Test Trip



This photograph, passed by the censor, shows Uncle Sam's latest type of dirigible on her maiden voyage over the water, "somewhere in the United States." She is of the non-rigid type with which the Government has been experimenting for several years. It is now the consensus of opinion among aerial authorities that this model will prove an effective auxiliary in the operations of the Army and Navy in actual warfare. The airship has a great speed and can carry fuel enough so that it can cover a great distance. This type of dirigible may be used in Europe by the American Army which is now mobilizing.

RED CROSS CAMPAIGN OPE'NS THIS EVENING

On Monday President Wilson sent telegrams to 100 mayors of cities in the United States, urging generosity in contributions to the American Red Cross, which is this week making a concerted drive for funds. The goal set is $100,000,000, which at first glance may appear to be a large sum, but in comparison with the great liberty loan, seems comparatively small.

In this campaign Charleroi is to have a share. The "drive" will be inaugurated this evening, with an open meeting to be held in the high school auditorium, at which time Dr. Landon assistant chief surgeon of the Carnegie Steel company, will be the speaker. He will have an interesting message for the people of this community, and as the meeting is free, there is no reason why the auditorium should not be crowded to its capacity.

Charleroi wants 3,000 members—more, if it is possible—for too many people cannot be engaged in this splendid work. The meeting this evening marks the opening of activities on the part of committees appointed to canvass this district, and it would materially help those who are giving of their services if people generally would go to the meeting this evening, that they might be informed of what the Red Cross really is, and what it expects to accomplish.

Every citizen of Charleroi can take part in this campaign—every citizen can help. Let us all get behind the movement and make it a success.

* * * * * * * * * * *
* All members of all sub-committees of the enrollment committee of the Charleroi Red Cross Chapter are requested to be present at the lecture, in the high school auditorium this evening, with an ample supply of enrollment slips and buttons. *
* * * * * * * * * * *

* * * * * * * * * * *
* All those who have made subscriptions to the Charleroi Chapter of Red Cross are requested to wear their buttons, that committee members may know the wearer has already subscribed to the fund which is now being raised in this community. By complying with this request, those who are members of the Red Cross will save themselves annoyance and conserve the time of committeemen. *

KNIGHTS OF MALTA TO HOLD OUTING IN JULY

The Knights of Malta of the Monongahela valley will hold their annual outing July 4th at Oakland park. A good program will be presented including addresses by well known lodge officials. This will be an old fashioned basket picnic for members of the order, their families and friends. A baseball game and other athletic games will be a feature of the afternoon.

TOMORROW NOON WILL MARK THE OPENING OF THE BATHING BEACH

WASHINGTON COUNTY PHYSICIANS MAY ENLIST IN MEDICAL CORPS

Washington county physicians are meeting in the armory of Co. H, at Washington, this afternoon, to consult with the committee appointed by Surgeon General Gorgas, for the purpose of securing enlistments in the medical officers' reserve corps. Notices of the meeting were mailed to all members of the Washington County Medical society, and practically every member was expected to be present.

The committee met with the physicians in Westmoreland and in Fayette counties during the past few days, and in both counties quite a number of the medical men agreed to apply for commissions in the army.

SHIPPING ALL COKE BY RIVER

Reliance Coal and Coke Co. Sending Product by Water Rout

1000 TONS SHIPPED DAILY

The Reliance Coal & Coke company, whose plan is on the Monongahela river a short distance above Brownsville, at Denbo, has opened a new field for its product, which has heretofore been sent to market by rail.

Previous to this year but little coke has been shipped by water to market, because of the lack of unloading, as well as loading facilities, but the Reliance company has recently completed arrangements whereby the entire output of their ovens can now be loaded into barges from the ovens, and shipped by water to a very profitable market.

The Jones & Laughlin Steel company, through the Vesta Coal company, which is the fuel producing department of the big steel company, has contracted to take the entire output of the company, and it will be towed in Vesta barges from Denbo, in the fifth pool, to Aliquippa, on the Ohio, where it will be unloaded at the big furnaces at that point. At present about 25,000 bushels of coke are shipped daily, and this amount will be increased from time to time, as the product of the coke plant grows to greater volume. Barges loaded with coke are not an uncommon sight on the Monongahela river at the present time, and in the near future, when developments now under way along the upper reaches of the river are in shape to manufacture coke, they will be greater in number than at the present time.

Charleroi's Popular River Resort Being Put in Good Shape for the Season

OPENING WILL BE INFORMAL

Charleroi's bathing beach will officially open Wednesday at noon.

Today employes of the beach are actively engaged in preparing the pools, putting in the wire fencing, which will safeguard the younger boys and girls who always enjoy the many features which are provided at this popular resort. The various bath houses are rapidly being put in shape for the accommodation of bathers, and when the officials in charge of the pool give the word tomorrow noon, everything is expected to be in good shape for the accommodation of any and all of those who care to enjoy the privileges that have been so generously provided.

Beyond placing the wire netting around the in-shore pools there was not a great deal of work to do to put the beach in shape for the accommodation of the public, buf some furnishing has been done, the buildings having been whitewashed and all the winter's accumulation of debris having been removed.

As heretofore, H. L. Swickey will be the guard, with additional patrols to assist on busy days, thus insuring safety to all bathers.

Mrs. Riley will be in charge of the ladies' department, while Mr. Fry will look after the men's accommodation.

Miss Fries will have charge of the candy stand, which as in the past will cater to those who may desire to indulge in confections.

The committee in charge announce that the following rates will prevail during the season:

For use of suits, towel, and privilege of bath house, 25 cents to all.

For towel and use of bath house and privileges, (bathers furnishing their own suits) 15 cents to all over 16 years of age.

For those under 16 years, the charge will be 10 cents.

As usual a free department will be provided for boys under 16, as well as girls under the same age.

The opening will be informal, no exercises of any kind being arranged for the occasion.

ALLEGES CRUELTY AS GROUNDS FOR DIVORCE

Jennie Harlin Malone, of Fallowfield township, tells a story of abuse in her suit against Sheridan Malone Uniontown, in May, 1912. They lived in Fallowfield township, where she owns a farm, until ten months ago, when, on account of his treatment she was compelled to withdraw from his home.

REDUCING THE COST.

Present conditions in the egg market, in which it is intimated that eggs will ultimately reach 20 cents per dozen, is attributed to the action of the government, which recently brought suit against a number of brokers in various cities of the country for attempting to corner the market and thus increase prices.

Of course the people will regard any action looking toward a reduction of food prices as a proper thing for the government to do, for in these strenuous times, when all citizens are called upon to do something to aid the government in carrying on the war, they do not feel they should be exploited by speculators.

At the same time, however, while the government is going after those who are manipulating the egg market, it should not forget there are other violators of statutes, who apparently are "getting by" with high prices which enter into the expense account of the man who raises chickens, and who is compelled to add to his prices occasionally in order to keep his flocks going.

Undoubtedly all of those who are engaged in boosting prices are fit subjects for government action, but until such time as the authorities are enabled to reach them, we will have to put up with many trying conditions, particularly in the way of food prices. Ultimately, however, the consumer hopes that governmental action will be able to reach every line of product, particularly in foodstuffs, which will make it somewhat easier for the head of the family to make ample provision for the necessities of his household.

THE RED CROSS CAMPAIGN.

Charleroi will inaugurate another "drive" for the Red Cross this evening when Dr. Landon, assistant chief surgeon of the Carnegie Steel company will give a lecture in the high school auditorium, under the anspices of the local Chapter. This lecture, which was prepared by Dr. Wm. O'Neil Sharman, chief surgeon of the Carnegie Steel company and is a first-hand presentation of conditions as they exist back of the battle lines in France.

Some of the boys who go from Charleroi with Uncle Sam's fighting units are likely to undergo the same experiences as the thousands of men who are now holding these lines on the western front, a representation of which will beshown on the screen by the lecturer this evening.

Charleroi's Chapter of Red Cross will have a great work to perform. In order to carry on this work we may be asked to make sacrifices, but even the worst we will be called upon to undergo cannot be compared with the sufferings which the boys along the front are faced with every day they are in the trenches.

It costs but little to become a member of he Red Cross and that little should be cheerfully and generously extended. We cannot all go to the battle line, but we can all help the boys who are called to the colors and we cannot do it better than by joining with the Red Cross in the great humanitarian movement it now has under way.

THE LIBERTY LOAN.

The Charleroi community is to be congratulated on the splendid manner in which it assisted in the success of the Liberty Loan. The sum total of our subscriptions will run over $200,000, a commendable sum for a community of this size. In fact, so far as efforts have gone in that direction, they are far ahead of all of Greene county.

However, it is not the purpose of our people to boast of what they have done in this respect—their response to the appeal of the government is sufficient answer as to their attitude toward the administration as to where the people of this community stand in the present conflict.

We have the commendation of having done well—in fact there are but few if any communities throughout all the United States that did not do their "bit" in this respect, but we should reserve some of our commendation for future use. We may be called upon to make some real sacrifices in the future, and if such a time should come, then our patriotism will be put to the test. We have no doubt of the answer, but action conveys louder than words just how deeply we feel—toward the national government as well as toward our family and our friends.

ANNIVERSARY
SA

ELECTRIC SPARKS

The "Ol' Swimmin' Hole" looks good to the small boy.

* * *

When it comes to joining the Red Cross there should be no "Slackers."

* * *

The hanging gardens of ancient Babylon have nothing on some of the freshwater sailors on the Monongahela. They are evidently students of history.

TOWBOATS ACTIVE ON THE MONONGAHELA

The United States steamer Goldenrod of the Fourteenth lighthouse district, made her annual trip up the Monongahela last week, furnishing supplies to the different lighthouses along th river.

The U. S. steamer Swan, Capt. W. H. Shannon, returned on Saturday fom Fairmont, having on board Col. Stickle, who recently succeeded Col. Jadwin in the U. S. Engineer's office at Pittsburg, W. F. Arris, in charge of locks and dams along the Monongahela and Ohio rivers, and W. D. Fairchilds, assistant. The party had spent several days inspecting locks and dams along theMonongahela.

W. D. Fairchilds, who has charge of locks and dams and all new work, as well as repairs on the Monongahela has been scouting the timber districts in order to purchase suitable material for repairs. Large timber is not only in demand, but scarce as well, and several contractors have failed to deliver material already ordered.

The steamer Sailor, of the Vesta line is out after receiving a new set of boilers. Capt. Richard Herman of North Charleroi is in command with Capt. Charles Hays as pilot.

The steamer Rover of the Pittsburg Coal company, sunk two barges belonging to the same company near Monongahela last week. The barges and coal will be saved just as soon as the river falls.

Considerable damage was done to the coffer dams and false work at Lock No. 3 during the recent high water, but repairs are about completed. The work of installing new turbines is being done by the U. S. craneboat, Captain Jesse Virgin in charge.

The U. S. steamer Slackwater is making some extensive repairs at Lock No. 2, Monongahela river. Coffer dams will be placed in order to pump out the outer lock chamber and a set of new wooden gates will be installed.

Capt. G. W. Howder, formerly Captain of the steamer Hillman, has been appointed superintendent of transportation for the Hillman Coal and Coke company, and will have charge of all craft movements for the company. The Hillman company has contracted to furnish large consignments of coal for the LaBelle Furnace company.

GARDEN COLUMN

By National Emergency Food Garden Commission

Other Bugs.

The plants most liable to attack from insects or garden diseases are cabbage, cucumbers and melons, tomatoes, potatoes, beans, peas, beets, onions, corn and eggplant, other garden crops are usually immue, except that when other crops are badly infected the insects are likely to eat whatever vegetables they can find, says today's bulletin from the National Emergency Food aGrden Commission.

The treatment of insects and diseases is simple; novices who follow directions can do as effective work as the expert gardener. All that is necessary is to remember to feed poison—arsenate of lead—to chewing insects potato bugs, cutworms and the like and to kill sucking insects (plant lice and tree beetles with a contact poison like nicotine The various fungous diseases-anthracnose, leaf spot and so on—disappear before bordeaux mixture. If the disease is incurable, like wilt, pull out the plants and burn them immediately. And remember never to plant the same crop of infected ground a second time in succesion.

Some garden crops withstand disease and are unattractive to insects. Beets, for instance, usually do not need spraying. The leaf spot (spray on bordeaux for it) is its commonest affliction. Carrots, for instance, probably will need no spraying treatment. Celery gets the blight or leaf spot, a fungous trouble, hence spray with bordeaux. The disease is recognized with gray or brown spots appear on the leaves and the stems droop.

Swiss chard usually escapes attack. If disease does appear the chard should be sprayed as directed for beets. Edible kohl-rabi, parsley, parsnips, lettuce and peppers are not like to be injured. Spinach is ometimes attacked by plant lice, which should be straped with nicotine sulphate. Turnips have the same trouble as cabbages.

SCHOOL PICNIC IS BEING HELD TODAY

The annual picnic of the Charleroi public schools is being held today at Eldora park.

The bright sunshine of the morning brought out hundreds of pupils, all bent on the same mission—to take part in the festivities that have been provided for the day's outing at the park. Many of the children were accompanied by their parents and all of them anticipated a most enjoyable day.

The pupils assembled at the various schools at the hours appointed and marched to the stations designated, where cars were boarded for the park. Baskets, of which there were many, and all of which were filled to overflowing with good things to eat, had been taken to the park in a car specially provided for the occasion, leaving the passenger cars free from any incumbrances.

Superintendent Pollock, assited by a number of teachers of the faculty marshaled the hosts of pupils who had turned out for the day, and they experienced but little difficulty in taking care of their charges. The pupils both great and small, as well as parents and friends, were all anxious to reach the park where all anticipated a day of the utmost enjoyment

The attendance of pupils and patrons was all that could be desired, the fine weather being the final factor which induced many to decide that it was the proper thing to take part in the festivities of the picnic. As is usual with all such picnics, school pupils were given many privileges at the park, and it is needless to say they enjoyed the various amusements which were placed at their disposal to the utmost.

Supplanted.

"What has become of the old fashioned political boss who used to sit back and put people into office?"

"He has retired," said Senator Sorghum, "to make way for the man of dominating personality who insists on putting himself into office."—Washington Star.

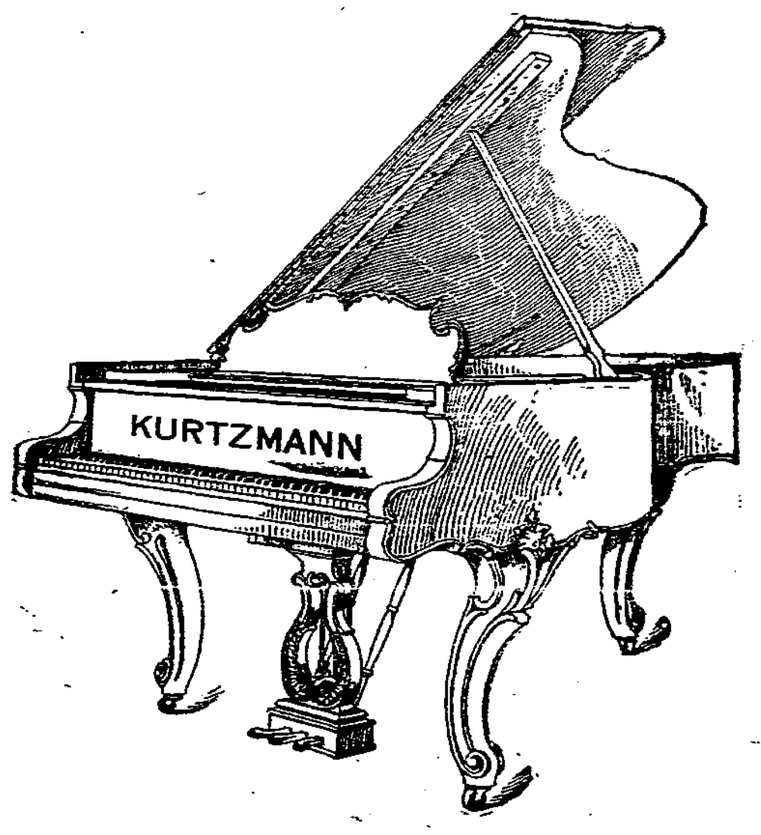
Discouraging.

Mistress—Sarah, I saw the baker man kiss you today, I really shall have to take the bread in myself in future. Sarah—"Twouldn't be no use, ma'am. He wouldn't kiss you, 'cause he promised he'd never kiss anybody but me!—Pearson's Weekly.

The Division.

He—So young March and his father are carrying on the business? She—Yes. The old man runs the business, while young March does the carrying on.—New York Globe.

Schroeder's Headquarters for Pianos and Player Pianos



The Bride's Most Cherished Gift

FILL A ROOM FULL OF GIRL GRADUATES AND JUNE BRIDES and ask them, each and every one, what gift they would most dearly love to receive and ninety-five out of every hundred will answer in ringing chorus, 'a Baby Grand piano.'

We have anticipated June's demand by procuring a most unusual stock of these beautiful instruments—a stock which will captivate the heart of every music lover.

At Schroeder's you have choice of the largest stock of Grand, Upright and Player Pianos in Charleroi; all designs and finishes, including antique mahogany. Terms cash or $7, $8, $9, $10, $12 monthly.

Call or write today for special proposition.

A SPLENDID CLASS

Continued from page 1.

can be enforced beyond the willingness of the people to obey it. Dr. Sparks proved that law and obedience meant something in the European countries, as they were strictly and rigidly enforced. In closing he said the best way to get obedience in the schools was to first have it in the homes, and that some good old-fashioned mothers would help in this respect. He emphasized his plea for respect of authority, then addressed the class with timely advice for their future.

The diplomas were then presented to the class by Dr. F. C. Stahlman, president of the Board of Education. In behalf of the class of 1917 Chester Stahlman, president of the class presented to the high school a picture.

Prof. S R. Grimm, principal of the high school announced the honor students, Miss Helen Fleming and Fred Bastian and awarded to Miss Fleming a scholarship to Allegheny College and to Mr. Bastian the Washington and Jefferson college scholarship. He also presented to Mr. Bastian the Pittsburg Alumni Association of the Rennesalear Polytechnic School of New York, gold medal for the highest average for four years in science and mathematic.

Those graduated were, from the academic department: S. Chester Stahlman, Esther A Berryman, Helen B. Fleming, Louis T. Fiedler, J. Gibson Hill, Garnet L. Fisher, Robina E. Gunderman, Rosella Thomas, Alphonse Boulanger, Anna K. Hepler, Helen Maines, Francis M. Piersol, Janet A. Clutter, John L. Speers, Marcella I. Collier, Maude E. Kibler, Grace M. Fleming, Mary A. Welch, Mary E. Thomas, Ellen W. Speers. Rebecca E Hackett, Grace E. Chester, Martha M. Mitchell, Charles B. Pollock. Glenn M. Murphy, Jean E. Bowers, Edmund J. Riva, Russell L. Carl, Robert K. Peyton, Eldred Welch, Helen B. Sharpneck, Freda H. Whitehead, Fred F. Bastian, Thelma J. Duvall, N. Mabel Wilson and Dail A. Sloan From the commercial department were: Velma F. Lewis. Mabel E. Protzman, Mary B. Davis. Kathlyn M. O'Rourke, Priscilla A. Saccani, Alice C. Wood, Clara M. Vezetti, Felix G Repine, Glenn A. Murray, George Kutchert. Mac V. Carson and Clement L. Pireaux.

The benediction was pronounced by Rev. W. G. Carl. The high school orchestra then played "Chinese Serenade" Fliege.

AUTOMOBILE DEALERS WILL HOLD MEETING

The Automobile Dealers' Association of the Monongahela Valley will meet on Thursday evening, in Monongahela, at which time dealers from Donora, Monessen, Charleroi, Finleyville, Monongahela and other points are expected to be present.

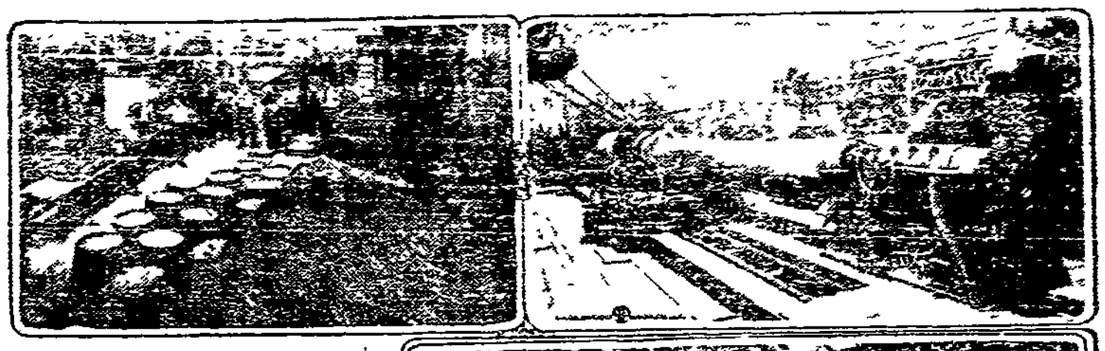
GREATEST STEEL WORKS OF AMERICA ARE MAKING MUNITIONS OF WAR FOR UNCLE SAM



Scenes in Bethlehem Plant Where Navy Rifles, Armament and Projectiles Come From--Work Goes on Day and Night

Munitions of war! From whence do they come?

These pictures tell the story They reveal the inner workings of one of the greatest steel plants of the United States—perhaps the greatest—where naval rifles, field pieces, mortars, armaments, shells and a thousand other instruments of destruction are being manufactured for the use of the American army that will fight in the trenches beside the French and British in war-torn Europe. The pictures have been passed with a special permission from the military censor.

In the upper left of the grouping is a scene in the shrapnel room of one of the shops of the Bethlehem Steel Works at Bethlehem, Pa., where the deadly shells are made up. Here, in great bins are tons upon tons of metal, sorted as to size, ready to be put in the brass or steel coverings of shells. The powder and explosives are in another building

The picture at the upper right shows one of the giant lathes turning out one of the latest models of the great naval guns that protrude from the turrets of battleships. The one being finished is of large bore and is perhaps for use on one of the cruisers now being rushed to completion. This gun-room is nearly half a mile long.

The lower picture gives a glimpse of one of the great casting rooms where the molten steel is run into moulds roughly in the shape of the gun. The object being hoisted may be a mortar for one of the coast defense forts.

Throughout this great plant the machinery is in motion day and night manufacturing munitions of war. Like hundreds of other factories, it is devoted entirely to the manufacture of implements for Uncle Sam and his allies across the Atlantic.

PERSONALS

W. H. Milliken was a business caller in Brownsville Tuesday.

Kenneth Showers of Fifth street is visiting at Ford City with his grandparents Mr. and Mrs. Crouch.

Mrs. Russell Wilson and children of Washington are here visiting with her parents Mr and Mrs. J. P. Clutter of Meadow avenue.

John F. Bowman of Fifth street is visiting at Uniontown.

Miss Sarah Reed of Elizabeth is visiting with Miss Lenore Miksch of McKean avenue.

Mrs. Herbert Steinman and daughter Betty have returned to their home at Pittsburg after visiting with her parents Mr. and Mrs. R. O. Vetter of Fallowfield avenue.

Announcement has been made of the engagmnt of Miss Ellen Mahon of Dunlevy to Walter Baum of Elizabeth and of Miss Myrtle Thorp of Charleroi to Oliver Baker of Elizabeth. The weddings will take place the latter part of July.

Dr. Francis E Linn, of Monongahela, and well known to many Charleroi people, left today for Fort Benjamin Harrison, Indianapolis, where he has been ordered to report by the government for service in the army medical corps. Dr. Linn holds a commission in the Tenth regiment.

Rev. W. G. Carl, pastor of the First Baptist church, read a paper before the Pittsburg Baptist Ministers' conference, in the Y. M. C. A. auditorium in Pittsburg yesterday.

THE MAKING OF A FAMOUS MEDICINE

Few people realize that over 350,000 pounds of various herbs are used annually in making Lydia E. Pinkham's Vegetable Compound, and these herbs all have to be gathered at the season of the year when their medicinal properties are at their best.

The watchword in preparing these herbs is cleanliness, the process of percolotion is perfect. All utensils and tanks are sterilized and the medicine is pasteurized, clarified and filtered before it is bottled for the consumer.

It is this wonderful combination of herbs, together with the skill and care used in the preparation which has made this famous medicine so successful in the treatment of female ills.

STATEMENT BY THE SECRETARY OF WAR

Recruiting stations in Washington county are in receipt of the following information from the United States war department:

The cavalry, engineers, coast artillery, signal corps and quartermaster corps of the regular army have already been brought to war strength."

45,000 recruits are needed at once to complete the new regiments of infantry and field artillery.

25,000 additional recruits are desired at the earliest practicable date to fill vacancies in order that the war strength of 300,000 men may be maintained.

Facilities are in readiness for placing these 70,000 men under proper training.

Any delay in obtaining this number will necessarily cause the loss of invaluable time.

It is the earnest desire of the War Department that 70,000 single men, between the ages of 18 and 40, who have no dependents and who are not engaged in professional businesses, or trades vitally necessary to the prosecution of the war, be enlisted in the regular army before the 30th of June, 1917.

NEWTON D. BAKER,
June 11, 1917. Secretary of War.

T. W. GRIFFITH,
Colonel U. S. Army, Retired, R. O.

NEGROES BROUGHT IN FROM LONE STAR STATE

Two car loads of negroes, and numbering 60 persons, came up the valley this morning on passenger train No. 7804, due in Charleroi at 7:30. Thirty of the men were detrained at Elrama, where they will be quartered, while the remainder were taken to West Brownsville Junction. These men came all the way from Texas, where they were recruited by agents of the Pennsylvania railroad, for work on the Monongahela Division. At the present time there is considerable construction work with the railroad company in the valley, and as local labor is scarce, it is found necessary to import men from the South. The men will be quartered in accommodations already prepared for them, both at Elrama and at West Brownsville Junction.

MARRIAGE LICENSES GRANTED AT WASHINGTON

On Monday at Washington marriage licenses were issued to John Baize of Morgantown, W. Va., and Pauline Michaux of Charleroi. Also to John Cier of Donora and Natalina Monack of Charleroi.

Please do not throw away your old clothes. Give us a call. We pay good prices. H. Schaffer, Bell Phone 56-M, Fifth Street and Fallowfield, opposite Bank of Charleroi. 299-tf.

RUSHING REPAIR WORK AT TREMONT MINES

The work of rebuilding the fan-house and other buildings recently destroyed by fire at the Tremont coal works, above Belle Vernon, is being rushed with all possible speed, and operations may be resumed at the mine within a week or so. The company is exceedingly anxious to have all repairs completed as speedily as possible, for the need of coal is so urgent that the company has offered all their men work during the suspension, while other enticements have been offered the employes from going elsewhere When the mine resumes all of the old men will find plenty of work at Tremont.

ASK FOR IMPROVEMENT OF FORWARD TOWNSHIP RIVER ROAD

Petitions are being circulated in Monongahela and in Forward township, Allegheny county, and addressed to the State Highway department, to have the road in Forward township Allegheny county, and addressed to the State Highway department, to have the road in Forward township between the Liggett Spring and Axle plant and Sunny Side improved. The road runs along the river and is an important link in the proposed highway which would connect the upper valley with Pittsburg. The river road opposite Monongahela now under improvement, is rapidly reaching the completed stage, the grading and pile driving being about completed.

BOND OF J. W. MATHIAS AS TAX COLLECTOR APPROVED

The bond of J. W. Mathias as collector of school taxes has been approved by the school board and his bond as collector of taxes for the borough has been approved by the courts of Washington county, which now qualified him to enter upon the active duties of these offices.

FUNERAL OF EDWARD W. WERLE WILL BE HELD THIS EVENING

Funeral services for Edward W. Werle, who died Sunday evening last, at the Presbyterian hospital, North Side, Pittsburg, will be held this evening at o'clock, at the home of his mother, Mrs. Rose Werle, 3940 Evergreen road, Pittsburg, and will be in charge of Charleroi Lodge, No. 615, F. & A. M. Members of the lodge, possibly 50 in number, will leave this evening at 5 o'clock, by automobile, for Pittsburg, to pay their last respects to their deceased brother.

COUNTY MEDICAL SOCIETY MEETS IN CHARLEROI TONIGHT

A meeting of the Washington County Medical Society will be held in the Stahlman building this evening at 8:30 o'clock at which time it is expected that Dr. J. W. Boyce of Pittsburg, will be present and address the meeting on the "Physician and the Present War Situation." The meeting will be in the nature of a war session and a full attendance of the Society is expected.

EXCELLENT VAUDEVILLE PROGRAM AT PALACE

Four acts of exceptional merit are being featured at the Palace theatre this week. Boyce and Boyce are presented in singing and dancing that is entertaining and worth while. LaVine and Jaffery, singing, talking and dancing artists are especially good and show ability and training. Mariam Mahr, who is billed as "The Cyclone of Mirth," is a clever comedienne. The concluding number of the vaudeville program is Warren and Frost a team of comedians. A special feature photo-play "The Devil's Bait" is also shown.

LOCAL MAN PASSES TEST FOR RADIO OUERATOR

Carl H. Rauschenberg, operator at the Coyle theatre, has passed the test for second class radio operator which was given at Pittsburg a week or so ago. Mr. Rauschenberg made a grade of 78 per cent. A grade of 70 per cent is all that is required for a first calss certificate, but a receiving rate of 20 words a minute is required, while his receiving rate was 18 words. He more than passed the grade for second class operator, as 65 per cent is all that is required, with 12 words for a receiving rate. He expects to be called out in a few months for government service in the signal corps.

STEAMER ALIQUIPPA IS BUT SLIGHTLY DAMAGED

The steamer Aliquippa, which sank recently in the Ohio river at Lock No. 2, was raised a few days ago, and yesterday afternoon, in tow of the steamer B. F. Jones, was towed to the Elizabeth Marine Ways, where the boat will undergo necessary repairs. From the apearance of the Aliquippa the steamer was damaged considerably, as there appears to be quite a "kink" in the steel hull amidships, which may make it necessary to take out a number of plates, in order to straighten them. The upper works of the boat are not damaged to any extent by the enforced and involuntary bath of the steamer. The Aliquippa is owned by the Vesta Coal company, which is compelled to charter other steamers while the Aliquippa is being repaired.

MINISTERS TO PICNIC ON THURSDAY NEXT

The Monongahela Valley Ministerial Association, which includes the ministers of all the denominations of protestant churches from Riverview to Fayette City, will hold a picnic on Thursday, at the Rehoboth Presbyterian church near Belle Vernon. The outing will include the wives and members of their families and quite an assembly is expected to be present. Those who do not go in their own cars will meet at the M. E. church in Belle Vernon at 10:30 a. m. on Thursday and they will be taken to the grounds in autos.

The morning will be given over to the usual hour of worship when the Rev. Henry Madties of Belle Vernon will preach. After the picnic dinner a schedule of contests will take place. Certain business combinations along the valley will engage the ministers in baseball croquet, quoit and other games for which the pastors have been challenged. Not a single challenge has gone unaccepted, so there will be some lively doings. The outing last year was held at Fayette City.

METHODIST CHURCH CELEBRATING TENTH DEDICATION ANNIVERSARY

The Tenth Anniversary services of the dedication of the Methodist Episcopal church are being observed with appropriate services in the local edifice each evening this week at seven forty-five o'clock culminating in a great service on next Sunday morning, afternoon and evening. Former pastors will be present, and one will preach each evening. Tonight the Rev. A. M. Doak, of New Brighton, Pa., who was pastor here from 1907 to 1910, was announced to preach but he is not able to be present and his place will be filled by Dr. W. B. Ward, of Roscoe, Pa. Dr. Ward was formerly one of the great leaders of Methodism in the state of West Virginia, where he served as District Superintendent for a number of years and also as Conference Evangelist. Tomorrow evening the Rev. F. A. Richards, of Pittsburg, pastor here for four years will preach the sermon.
